

I truly benefit from listening to XM Satellite Radio and its traffic and weather channels without "commercials". This satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I should be permitted to hear. I am a law abiding citizen and pay all my taxes please FCC reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that we as subscribers demand and deserve.
Thank you
